

## Removing a Relocation Obstacle

DATAGROUP was established with a simple theory - relocating employees and their families are smart people.

We saw that if the employee was willing to accept the invitation to move, the company was willing to bet that given the right tools and opportunity, these transferees would do great things for them in the new location.

### *So what is the obstacle?*

The information and support needed to transition the transferee's lifestyle to the new community is being ignored and the transferee is left to figure out "the lay of the land" on their own. All of this could lead to a stressful, and many times, frustrating start to the new business opportunity.

### *And that's where we come in.*

*We gather the information the transferee needs so they don't have to spend their time and energy figuring out where and who to ask to get the answers.*

*We deliver the information quickly and professionally. And most important, we deliver it with respect and personal support during this emotional and exciting time of transition.*

*We agree that when our clients are given the right tools and opportunity, amazing things are bound to happen.*

## Our Services

It is our privilege to introduce our services and programs to you. They have been carefully developed to collaborate with your organization's goals of recruiting and retaining the best employees.

Established in 1995, DATAGROUP is a boutique relocation company with a reputation of providing concierge type service through moderately priced programs to our clients throughout the United States.

Unlike large relocation organizations, we make it a point to know our clients and we are able to react to situations faster and achieve better results with consistency of service.

The information we gather and the support we provide goes well beyond "one-size-fits-all" which validates our philosophy that each relocation is a personal journey.

## Program Options

DATAGROUP's programs are designed to provide community information and support to the transferee and family when they need it most. Our program options include:

**PRE-DECISION SUPPORT:** DATAGROUP provides research-based information about the destination community in an easy-to-read format so that the transferee is not left to self-directed research or basing decisions on unfounded opinions.

**Our Solution: FIRST LOOK: Presenting the People, Places, and Potential of the Destination Community.**

**DUAL INCOME EMPLOYMENT ASSISTANCE:** When the financial impact of employment for the spouse/partner of the transferee is critical and facing the job search alone in the new community is not an acceptable option.

**Our Solution: FIRST ADVANTAGE: Comprehensive Employment Solutions and Support for the Relocating Job Seeker** or our condensed service, **FIRST IMPRESSIONS: Delivering Actionable Employment Assistance for the Relocating Job Seeker.**

**FAMILY SOURCING REQUESTS:** Today's family unit has a lot of demands on it. Whether it be for child care or elder care or replicating lifestyle resources in the new community, DATAGROUP will provide information and resources to meet the needs of the transferee and family.

**Our Solution: FAMILY FIRST: Confidential Community Resources and References for the Relocating Family.**

**TOTAL SUPPORT FOR THE TRANSFEREE:** When the company wants to make sure no question by the transferee or family goes unanswered, THE PREMIERE PACK provides the support they deserve from start to finish.

**Our Solution: THE PREMIERE PACK: The FIRST LOOK Program + The FIRST ADVANTAGE Program + The HAPPY NEW HOME Gift Basket.**
